SUPPORTING

Welcome!

Following on from the global pandemic and the disconnection of Members from the Squadron due to government isolation restrictions, we are now seeing a steady growth in Member numbers and a positive energy returning to RQYS.

2022 has no doubt been a watershed year for the Squadron's return to growth in all areas of participation and enjoyment of everything happening both on and off water.

2023 promises to be even better, but for now please enjoy our compilation of all that made up another year at the Royal Queensland Yacht Squadron.

COMMODORE

No doubt the biggest undertaking of the past year was the development and implementation of the new RQYS Constitution and the associated By-Laws – a task that turned out to be more complex and took longer than expected, but which has ended with a very pleasing result.

I would like to thank the working group in Mel Hardy and Chris Tyquin once again, as well as our Honorary Solicitor Wayne Jenvey and his staff in Nicola Stewart. I'd also like to acknowledge the 12 members that nominated for the four Board positions and thank them for their interest and commitment.

As I began this report, voting was still open for the Board roles which, together with the current Flag Officers and our Honorary Treasurer will form the very first business Board in the history of RQYS. Now, as we know, Squadron Members have voted Melissa Hardy, James Tuma, Nigel Spork and Chris Tyquin into these new roles and we are looking forward to our work in 2023.

As things 'normalised' throughout 2022, the Squadron got back to business and use of our facilities returned to pre-pandemic levels supported by consistent and strong Member participation.

We opened our 138th sailing season on a very inclement Saturday, which forced us to get fairly creative with spaces at the Squadron, given that the use of the rigging lawns wasn't possible. Not only did our staff do a great job of 'Plan B' but also it forced the use of areas within the Club that would normally not be considered for the event. The result was an outstanding success and, while numbers were understandably down a little, it was a great opportunity to showcase the extent and flexibility of the RQYS facilities.

It was also an opportunity to welcome our new Patron, Professor Graeme Nimmo RFD, a Squadron Member and regular WAGS sailor. As we stood on the dock to take the salute during sail past, Professor Nimmo and I agreed that *"boating is indeed a water sport"* and that the rain hadn't dampened the spirits of RQYS Members.

Prior to the opening of our sailing season, we had a very busy off-season at the Squadron with a multitude of events both on- and off-water being delivered. Among them was the Brisbane to Hamilton Island offshore yacht race which attracted 26 starters in pretty good conditions. If the reaction from the participants after the race is anything to go by, next year's race should be bigger and better again as this event develops into one of the major offshore races in the country. Keep an eye on the revamped Brisbane to Keppel race in 2023 as well. I think that this event will resurge into something very special.

One of our major events – the Goodwill Cup navigation competition – saw our arch rivals (but good mates) Southport Yacht Club take the cup from us in an admirable performance. Word has it that their navigation fleet has been in some serious training and, if that's the case, it certainly paid dividends for them. Congratulations SYC, but don't fasten the bolt that holds the cup down too tight, as we'll be looking to bring it back to RQYS next year!

A large number of Members in sail and power boats set off for their annual event to the Whitsundays and all points in between in July. The last had arrived back at the beginning of November with a great time had by all.

Sailing participation by our local schools continues at an elevated rate and we are now hosting more than 1,000 schoolkids per year through all of our programs. This continues to be a vital element of the Squadron's purpose and our Members should feel very proud of this.

The Squadron is in a sound financial position now with no debt and with significant cash reserves in place that will underpin the organisation for some time to come. Capital projects are being carefully planned and executed with a new Members' bar to be constructed within the Bistro area and a deck to be built onto the Girdis Room, which will expand the capacity of that space as well as create a new facility for Members to enjoy and overlook the rigging lawns and harbour while partaking in the hospitality our Club has to offer.

Commander Nick Cusack RAN

Professor Graeme Nimmo RFD

Commodore David Redfern

Linda Gorry

The Canaipa Long House remains a challenge from a financial perspective and, while the demolition of the old caretaker's cottage is complete, the cost of the Long House has increased dramatically – to the point where General Committee has decided that a new approach and a redesign is required to bring this project back into budget. That work is only just beginning. Other capital works throughout the year are addressed in the CEO's and Marina Manager's reports on the next pages.

It is often remarked that RQYS could not operate without our stalwart band of Volunteers and I don't think that there's ever been truer words spoken. We are ever grateful to this selfless group of Members who give their time willingly, which allows us to run our boating, sailing and regatta programs.

My sincere thanks and appreciation goes to each and every one of our Volunteers for their ongoing contribution.

Similarly, our committee members, all Volunteers, who are the interface between the membership and our Club, continue to tirelessly serve: they are responsible for creating and organising on and off water events, membership representation and bring a broad range of experience and knowledge to RQYS.

The announcement of the 2032 Olympic Games coming to Brisbane has brought with it opportunities for the Squadron and while we won't be hosting the event itself, we are very keen to become 'home' for the international teams in the four or five years in the lead-up to the Games.

This opportunity is driving a revision of our Master Plan to ensure that the appropriate spaces within the Squadron grounds can be utilised to best advantage while leaving a legacy for the Squadron after the Olympics. Much work is to be done in this regard but a start has already been made, and there is also a growing number of opportunities for our Club in addition to the Olympics.

A very special project to which our Squadron has committed is **Making Waves**, a sailing program for disabled and disadvantaged kids. It involves purchasing a yacht and fitting it out accordingly, then finding the ongoing funds to support the program on a continual basis. The Squadron will also provide berthing facilities for the yacht.

We have an offer from a Member to purchase a suitable yacht and we have had a number of Members commit to funding the program in varying degrees, as well as some offering their time as Volunteers. This is yet another example of the importance of the Squadron and the place it retains in the community.

The highlight of the year for me was recruiting our CEO, Karen Baldwin. Karen has brought with her a wealth of much-needed specialist knowledge and expertise in club and hospitality management and operations and has worked her way patiently and diligently through the frustrations that she inherited, this in addition to her own very sad situation with the loss of her husband David, only a couple of months ago. Karen has won the respect of her staff and membership and has melded together a tight team and at the same time introduced some necessary initiatives all aimed at improving Member benefit and experience, which is her mantra.

Karen is more than ably assisted by our RQYS staff, and I thank them for their tireless work and dedication to our membership. We are fortunate indeed to be blessed with such wonderful people who run our Club.

In closing, I am very pleased with the progress that we have made in 2022 and I hope as Members you feel the same. We have undertaken some complex and difficult tasks over the year, but I am confident that we are well-placed to reap the rewards of our efforts.

Thank you and, as always, it is an honour to serve you as your Commodore. 🚩

David Redfern, Commodore

CHIEF EXECUTIVE OFFICER

Since my arrival in Brisbane in March 2022 and starting as your new CEO, I've had the opportunity to listen, observe and work closely with the Management Team, Board, Committees and Members to ensure the immediate future achieves the desired levels of improvement in all aspects of our operations.

We must give significant attention to building a sustainable future, through the development and implementation of key strategies which will focus on the immediate needs of the Squadron as well as the longer term objectives, and not just until 2032 with the Olympic Sailing on our doorstep, but well beyond, to at least 2045.

I would like to acknowledge the successful launch of the Squadron's own 10-year Countdown to the 2032 Olympic Games and our goal to have strong representation of our very own sailors front and centre on this world stage.

The Squadron has accomplished a lot this year, with the successful completion and introduction of a new Constitution, recruitment of a new Board of Directors, new By-Laws and a Nominations Charter and Committee. There was a delay in the process, as we held our breath until the ATO confirmed the Squadron's NFP status, which fortunately came through and allowed the election to proceed in December.

As at the end of November 2022, total income was \$7,057,407 compared to \$7,110,126 for same period last year. Whilst the income this year is lower, the net profit results YTD are better at \$502,120 compared to \$423,165 last year. We are expecting a net profit finish for the current financial year close to budget but also better than last year.

Membership has also remained strong, currently sitting at 3,875, slightly higher than the previous year. The Member survey conducted in November 2021 highlighted food and beverage service and hospitality as a key issue and will remain a priority for the Ancora team to continually improve, noting that many Squadron events this year have received very positive feedback. The Marina amenities rated poorly, and you will see below these have now been refurbished.

There have been a number of challenges along the way and some of these have been resolved, partially or in full, and others remain a primary focus of our attention. The issues included:

- **Marina accounts** – working with providers Marina Focus and MSL to amend errors in our database and refresh individual account information in a clearer and easier to understand summary on monthly statements;
- **Marina Office communications** – staff levels have been increased from a team of three to five to improve service and responsiveness to Members and their queries;
- **Reception** – a whole new team has been recruited and trained to improve professionalism and provision of information at the first point of contact for Members and visitors to RQYS;
- **Food & Beverage** – the Ancora team has had a roller-coaster ride since being appointed as the Squadron's caterers two years ago. First, they were confronted by COVID-19 restrictions on trading and little or no support to assist their integration into the Squadron but, over the last six months, we are now in a much stronger and collaborative position working with them for the benefit of our members and guests;

- **Recruitment** – appointment of Head Coach with Adrian Finglas joining the Squadron in November after living interstate for nine years, and well-known coach and 1983 America's Cup crew member Rob Brown in the role of Business Development Manager. We also filled the role of Marketing Manager with Steve Ehmer, with a top priority to develop a new website for the Squadron – one which will be easier to navigate, find the information you are looking for and will have a dedicated Members' log-in area to enable you to check up on your Squadron account each month.

There were projects started, some completed and others continue as a work in progress. Year-to-date (October 2022) the Squadron has spent approximately \$400,000 on major projects with a further \$1m budgeted before the end of March 2023. A brief recap of some are:

- **Canaipa** – construction of new caretaker residence and demolition of the old cottage completed by the end of November 2022. Construction of the new Long House was put on hold due to exorbitant increases in materials and labour costs, well beyond the planned budget;
- **Hardstand** – has been upgraded with new electricity and water service outlets as well as new bitumen surface improving safety, presentation and reduction of dust and dirt in the air;
- **Main boat ramp and adjoining rigging lawn** – new concrete surface has been completed and turf laid;
- **Sheet wall piling near Dinghy rigging lawn** – has increased safety and presentation of this area;
- **Marina 2 amenities** (showers, laundry and toilets) – have all been renovated and much improved presentation;
- **Marina piles** – six have been replaced.

I would like to express my gratitude to team leaders and department employees as well as the Board, Committees and Members who have offered their support and encouragement during a personally difficult time, but equally I want to thank Members for their assistance in stamping out the culture of unacceptable behaviour which was quite prevalent earlier this year.

We were enormously proud to be acknowledged by Australian Sailing as "2021-22 Club of the Year" in Queensland and we congratulate our other State awardees:

Female Sailor of the Year	Mara Stransky (State & National) & Angela Hawden
Male Sailor of the Year	Tom Needham, Joel Turner & Andrew Stransky
Sports Promotion	Mike Middleton & Anton Prange
Offshore Sailor of the Year	Peter Harburg & Kate Kenny
Youth Sailor of the Year	Liam Millar
Coach of the Year	Greg Kemp
Official of the Year	Guy Morton
SheSails Award	Kate Kenny
Sports Professional of the Year	Mark Dingley

The year ahead is full of promise and encouragement for everyone to do their best whether on or off the water, whether an employee, Volunteer or a Member. Our very simple objective is to be a happy club full of happy Members all sharing the common goal of friendship and a love of being out on the water. Looking ahead, it's going to be a great year, lots of positive activities, new events and can't wait to share with you all the plans for upgrading and renovation of the Club bar, Bistro and dining spaces! 🇳🇿

Karen Baldwin, CEO

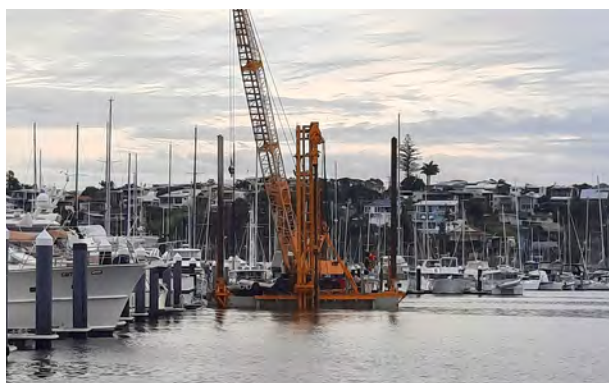

MARINA MANAGER

2022 has been another year of development and growth across all aspects of the business units I manage, writes Glen Scott, adding that ‘I don’t know about you all but I feel we are through the COVID bubble’ and we are all now trying to enjoy the freedoms we had before.

Numerous capital improvements have been completed around the Squadron grounds, including:

- **Marina piles** have been replaced in line with our maintenance schedule of pile inspections;
- **Marina water blasting** has recommenced after being completed two years ago: thank you to Shane Green for completing this time-consuming job;
- **Marina electrics** – replacement of RCBOs in some of the pedestals that have been found to not be suited to some of the new battery management systems aboard berthed vessels.
- **Security point** to allow John and GMR colleagues to be able to man the main gate during rostered shifts;
- **Trailer-boat hardstand** resurfacing and line marking, as well as power upgrades and water supply, with eight new spaces created and security cameras and lighting installed;
- **Boardwalk and bistro illuminations** with new LED fairy lighting enhancing evening ambience for Members, guests and visitors;
- **Marina 2 amenities block** renovations and full refurbishment undertaken.

BOATYARD

The boatyard has seen a very strong 2022, with Graham and Billy the backbones of the business together since Scott left in 2021. Graham, especially, has been the stalwart “Rock” of the Slipway for more than 30 years and I know many of you have a great respect for his knowledge of your vessels. Billy has really stepped up to the point where he now runs the Roodberg like it is his own, and we are all very proud to see the improvement in his ability over the past 12 months.

We have been fortunate to have Joe Schriener join our crew in 2022. He has come from Noakes in Sydney and brings with him a vast array of both lifting and business experience which has helped improve the operations and will further improve the experience for Members using our facilities.

Please bear in mind that the lead time for bookings in 2023 will increase, with positions already blocked-in for January and February so plan ahead to ensure we can get you lifted and back in the water in your time frames. Remember to also speak with your contractors so they can allocate time to your booking.

DINGHY HARDSTAND

This area remains a hot piece of property, and you may have noticed the growing demand of sailors needing to use the Squadron to store their boats near the water, with a big increase in sailing catamarans in particular. Sailing Manager Mark Dingley and I are working on a few different plans to improve the area for a wide variety of boats. *(It is a great ‘problem’ to have that we are short on space for sailing vessels.)*

TRAILER BOAT HARDSTAND

This area has seen a few important upgrades to improve the Members’ experience, as noted in the summary (left). We have upgraded the power supply to cater for the larger trailer boats now on the hardstand. Water has also been installed to allow owners to return to their hardstand spaces to wash their boat and outboards down. This has seen a decrease in boats parking around the roads to wash their boats.

Part of the hardstand has been resurfaced; there is now only a very small section that is left to be done. Since I started at RQYS, we have completed all of the asphalt areas to be resurfaced *(especially if you can all remember the 4x4 track that was up towards Marina 2!)*. With the new asphalt and line marking it has significantly improved the usability and aesthetics around the Squadron.

Members may not be aware we provide a service for launch (\$100) and retrieval (\$100) of trailer boats, including hosing the boat and flushing the engine, putting the cover back on and parking it back in its space. If this is of interest, please contact the Marina Office on marinaadmin@rqys.com.au or 3393 3554 to discuss this service.

Note also we have a new pontoon installed on the slipway to provide another option for trailer boats to be launched when the main ramp is being used for sailing events.

STORAGE SHEDS

The storage sheds are a growing business showing the benefit to Members in having equipment stored close to their boat. The sheds have run at almost 100% occupancy through 2022. There is ongoing discussion around possible further storage sheds due to increasing demand, and we continue to review various options at our Works Committee meetings each month.

FACILITIES

2022 has again been a busy year with facility upgrades and maintenance. The main boat ramp has had the concrete apron completely replaced and will provide many years of good service to sailors and trailer boat Members. *(It was interesting to find, in the removal of the old concrete, that none of the slabs had any reinforcing.)*

The three main rigging lawns have been greatly improved with new turf and top dressing completed this year. This is a difficult project to complete, trying to work around the constant use of the lawns by many Members, schools, kids and regatta sailors and there is never really a 'right time' – even in the off-season with social events taking place on the main lawn. More work is still to be done but the good results are already obvious. The Academy ramp has received sand to improve the look from the Boardwalk and for the Sailing Academy to use for their students and Members.

In May, in conjunction with pile inspections and replacements, the Marina 2 bridge ramp was lifted and the degraded and damaged rollers on the underside of its footing were repaired. Thanks to our Volunteers and staff who provided an onwater transfer service for Members and tradies during the few hours the ramp was inaccessible.

I don't always see things which you might experience at different times of the day to rostered staff hours, so your active engagement is important for everyone. Please email any issues to marinamanager@rqys.com.au and I will look into the situation and remedy as quickly as possible.

The sheer size of the Squadron grounds – more than 75,000m² ashore – and the diverse range of facilities and users provide many challenges in condition monitoring and maintenance, and I relish the oversight of and feedback from Members (especially our many liveboards) as part of the overall RQYS facilities management process.

The fleet of marina trolleys is a case in point: after receiving Members' input, the wheel bearings were investigated and repaired with standardised fittings.

CANAIPA

The new caretaker's house (with some of the best views on Russell Island) has been completed, and Kevin has now taken up residence. Cameras will be installed around Canaipa to improve security around the property and provide background monitoring when Kevin is away from the property or on days off. The old house has been demolished, with the platform now ready for the Long House. Fraser Spencer is working hard to negotiate competitive quotes with suppliers and contractors, given the current high prices for all building materials.

SECURITY POINT

Having a security guard onsite on weekends has greatly enhanced control of access to our Members-only parking precinct. We need the support of Squadron Members in not permitting non-members to use their keycards or allow them to tailgate through the gates.

I hope you have enjoyed 2022 in your personal lives and at RQYS: it has been a progressive year around the Squadron and in particular our new CEO Karen Baldwin has brought a vibrant introduction to the Club. 🚩

Glen Scott, Marina Manager

SAILING MANAGER

What a fantastic and busy year it's been: the constant uncertainty around COVID lockdowns almost forgotten as we get back to some sense of normalcy, observes Sailing Manager Mark Dingley, with 'just' the wet and windy vagaries of erratic weather to contend with afloat.

On water started with a bang: Sail Brisbane in November had 192 entries across 19 fleets on four courses. The wonderful army of Volunteers outshone in delivering a top-level regatta.

January is Nationals month, and 2022 had some of the best in the world compete in the A-Class Nationals followed by the spectacle that was the VX One Nationals. The speed, the colour and the competition was an experience to behold.

The Brisbane Women's Keelboat Cup was the first major event to fall victim to the unprecedented weather events, with 20 of the first 22 weekends being rain-affected. The Brisbane floods in February-March made the Bay unsafe for sailing so the decision to postpone until July was made. 13 entries made for a great two-day event won by Angie Hadwen on *Mostly Harmless*.

Somehow, the Squadron still managed to deliver 11 State Championships, four Nationals and a number of special events including the Moreton Bay Multihull Regatta, the Winter Waterloo Cup, Brisbane Seawind Regatta, Beneteau Cup & French Yacht Challenge, the Wolf Rock Race, Bastille Day Race, PIF and the wonderful Queensland Youth Week regatta.

Every Saturday I find myself amazed at the hive of activity on the lawns. The energy and enthusiasm of the youth squad is inspiring. This energy extends out onto the race courses with Off-the-Beach (OTB) Club racing. The 137th Sailing season saw 64 entries on the Northern Course across seven very competitive fleets, to mention the VX Ones, Etchells, 9ers and the exciting Nacra 15s. The Southern Course had a very impressive 92 entries with the biggest numbers in the Laser 4.7 and Radial fleets. Our Division Yachts had seven entries in Division 1 and two in Division 2 including the amazing Rea Reynolds on *Marisa*.

The second "Champion of Champions" was a closely-fought day of racing where the Squadron Champions in each fleet got to represent, and sail against the other fleets in the Squadron's Elliott 6s. The ultimate bragging rights landed on the Etchells represented by David Healey; well done.

WAGS continues to draw the crowds largely through the hard work of Paul and Nelly Bolton. Almost every Wednesday the team meet in the Bar at 0900 to evaluate the conditions, set up and, together with Don and Brian, head out to start the fleet from midday. The banter in the bar afterwards with the room captivated by the closest to their start time is a wonderful example of the essence of sailing.

“Aggregating RQYS sailing operations across eleven months of 2022, more than 3,820 boats participated in more than 80 different events.”

To deliver a world-class achievement like this is due to the efforts of the small, professional team in the RQYS Sailing Office, Sailing Academy and, more importantly, made possible only by the generous gift of thousands of hours of time and the experience of our wonderful volunteers – thank you. 🇦🇺

Mark Dingley, Sailing Manager

ACADEMY

2022 has been a fantastic year with the reopening of the activities at the Squadron's Sailing Academy. The Academy has relocated headquarters out of the Marina Office and back to the old Sailing Office next to the Opti storage area, notes Head Coach Adrian Finglas.

This new location enables the Academy to nurture our future generations and assists with guiding our new sailors more effectively. The journey from Opti lawn to open class sailing happens very quickly and hopefully we will see some of our Opti faces of today on the podium at the 2032 Brisbane Olympics.

The Academy has had some key staff appointments this year with Melanie Watson and Dominique Vlug coming onboard. The team is responsible for all Academy activities from learn-to-sail in a keelboat to starting the racing journey at the Opti Green Fleet level.

Melanie brings a lifetime of instructing and coaching experience making the trip north from Southport Yacht Club. Her vast instructing background adds to our team's delivery experience.

Dominique has transitioned out of the airline industry and brings a wealth of experience in the customer service and delivery area. To round off the team, I am delighted to have made the trip back to Brisbane as the new RQYS Head Coach after 10 years in Melbourne working at two premier clubs.

With our new staff in place, we will deliver world-class programs across the range of products. Christmas 2022 summer holiday activities are at full capacity and are fully booked out at this stage.

All activities at the Squadron's Academy continue to grow under the guidance of our amazing Coaching Group. The Squadron has so many special coaches and instructors working to build our future. I would like to personally thank all the instructors and coaches for their efforts in 2022.

In the 2023 season we will be looking at increasing our instructor and coach numbers to address the ever-increasing local school engagement. Coaching and instruction overall will grow in delivery under the guidance of our new team.

“Out of the 1,492 Australian Sailing courses delivered across Queensland the Squadron ranked once again as the State's best Discover Sailing Centre, delivering no less than one-third (503) of these.”

Our six new RS Quest dinghies are fully operational now and are a huge success with our schools sailing program: we currently have four local schools engaged on a weekly basis; in 2023 we will have six schools engaged and will be looking for more instructors and coaches to deliver the courses. Our schools' program is becoming a critical entry point for many of our Optimist sailors.

We would like to thank all our sailing instructors, coaches, sailors, Volunteers and administration for a wonderful 2022 and we hope 2023 will be at a new level! 🇦🇺

Adrian Finglas, Head Coach

HOSPITALITY MANAGER

In 2022 our Squadron's hospitality department loved welcoming our valued Members and guests to the Bistro to create connections and countless memories – from lunchtime bites to post-WAGS drinks – so thank-you for gathering and celebrating with us!

In the RQYS Bistro we like to go big: big food, big flavours, and big smiles. With a seasonally changing menu we showcase our favourite element – the water that surrounds us. With fresh dishes such as our Seafood Marinara, or Member favourite Fish Tacos, we take our guests to the ocean all year around ... just add wine!

Our function rooms were thriving this year with a seemingly endless parade of corporate conferences, sailing gatherings, grand events, intimate occasions, and romantic celebrations. Wedding bells were ringing with 15 brides walking down the 'RQYS Lawn' to join a proud tradition of couples marrying at the Squadron: a service that really touches our hearts.

Big shout-out to the unforgettable 'Celebrate for a Cause – Santorini Summer' [see page 47] where the RQYS bar and Bistro were transformed into a magical landscape that excited the senses. Hosted by RQYS House & Entertainment Committee's Tracey Lucock, this annual event was attended by over 500 people and raised funds for local Bayside charity groups.

Squadron events had a milestone year of expansion, bursting with diverse, new and successful food/wine experiences.

We opened 2022 with our abundant and decadent **Crab Dinner** boasting the finest seafood delicacies including the mouth-watering mud crab – and the rave reviews have called for this much enjoyed event to return for 2023.

The **Mothers Day High Tea** was an enriching experience, described by one guest as 'an incredible event'. The colder months brought a need to warm things up with our 'European Food & Wine Dinner Series' with a special mention of the **Bastille Day Dinner**. This truly gastronomic experience featuring the robust flavours of a French-inspired menu and wine list had one Member writing in later: *"outstanding effort went into the night; we were genuinely shocked at how much effort the staff made."*

We celebrated the end of winter and the turn of the season in the tastiest of ways with **The Italian Long Lunch**. Chef Giuliano put a homely perspective on his four-course irresistible culinary journey through Italy. We were joined by the very talented three tenors 'Tenori' who created the perfect finale.

From your dedicated Hospitality team: thank you for your continued support.

We look forward getting to know you better at long lunches in the Bistro and filling your calendar with exciting occasions. If you are a lover of food, wine, and good times you'll no doubt find yourself at one of our 2023 events! 🚩

WAGS

REPORTS

WAGS WRAP 2022 reflections

Another fantastic year for our Wednesday Afternoon Go Sailing (WAGS) family! The camaraderie among the skippers and crew is always encouraged and generally obtained.

From my point of view, the standard of seamanship displayed has been great to watch and the growth in knowledge of all skippers and crew a true delight to witness.

With a few weeks to complete the year for 2022 we have managed to sail (to date) a total of 40 weeks. Due to some horrible weather provided on a few Wednesday afternoons – and mornings, for that matter – and in keeping with our much-read Sailing Instructions, the decision not to race, to keep safe and not break boats (and skippers, crew and, most importantly, volunteers on a few occasions) needed to be made. Even with many boats heading north mid-year for the regattas up there, we still averaged 37 boats per start throughout the year. So ‘well done’ to all who sailed.

WAGS is so fortunate to have some fantastic sponsors. Our ‘family within our family’ is **Yachtshare**. Thank-you, Anton and Paul for all you provide (which is so much); thanks also to **JSA** – Jason and Sharon – who give a fantastic end of year prize for the most amount of starts; to **Muir Marine** – Ross and Jason – who have been giving a prize for the closest to the line for decades; **Australiawide Boat Sales** – Detlef and Warwick – who have been providing their great caps again for decades, and finally **Diver Adam Dodson** for vouchers and a dive for a clean hull. All amazing.

The last and very much *not* the least are my wonderful volunteer crew – Nelly, Don and Brian – who give their time every week to ensure everybody has the best day possible. It’s a well-oiled machine and you are all amazing. THANK-YOU!

Safe sailing and looking forward to 2023. 🚩

Paul Bolton

CHEERS, VOLUNTEERS!
Inspirational Guy

The best part about being one of the RQYS Volunteering team is the consistent and large number of sailing events: we really do participate all year long thanks to our great SEQ weather.

In 2022 apart from year-round Club sailing (that's busy enough!) we've had a fantastic variety of sailing from all classes and sizes. Right from School Fleet and Teams racing, numerous Off The Beach State titles like Lasers, Hobies, Finns, OKs, VX1s, 18-foot Skiffs, Formula Foil, Etchells and the exciting new Waszps (baby foiling Moths for those who haven't seen one), as well as national titles like the 9er classes and VX1s. Our Club-specific OTB major events included Youth Week and Sail Brisbane – with the latter being very well attended and the wind gods putting on a great weekend.

Of course the big boats don't miss out – WAGS, Div.Boat Racing, Wolf Rock, Bastille Day, Beneteau Cup, Multihull Regattas, Women's Keelboat Cup and of course the fantastic B2HI (Brisbane to Hamilton Island) race, to name just a few.

For me as a Volunteer I know how lucky we are to be part of a club that does so much year-round racing, so many different classes and racing formats. Not only do we get to work with other passionate people – we get to ‘create’ really great on-water ‘teams’ for each specific event (whether a typical Saturday club day or a week-long national regatta). Every week we get to be a part of a new on-water ‘community’.

I feel that it's this on-water friendliness and passion for the sport that keeps us coming back. That and the fact that it helps keep the grey matter kicking over big time – I know that when I retire I won't be bored! 🏊🏻‍♂️

Guy Morton

VOLUNTEERS NEEDED!

Team RQYS fields around 30 Volunteers on the water each Saturday of the year to run our many sailing events and new hands are always needed – both afloat and ashore!

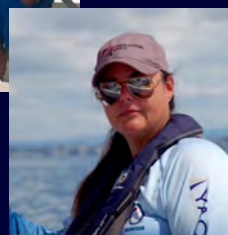

The thousands of hours volunteered every year underpin so many facets of our Club's safe and successful operations and events that any alternative is inconceivable.

Full training is provided for a diverse range of roles – onwater (Start Boats and Course Boats, Race Officers, Timers, Recorders, Skippers, Communications and Marker-laying crew) and on land (Ramp Marshalls, Radio Officers, regatta administration and general handyperson work) – with an emphasis on fun, friendship and safety.

For more information, please call the Volunteer Coordinator or Sailing Manager on 3396 8666 or email either:

SAILING CALENDAR 2023 Q1

This event calendar for the second half of the 138th Sailing Season 2022–23 is compiled from the most recent information derived at the end of November 2022. Whilst every care has been taken in compiling this data, it should be noted that some events are yet to be confirmed (TBC) and, of course, all are subject to both weather and possible COVID-management restrictions. Check the [RQYS website](#) and [Facebook pages](#) for updates or [contact the Sailing Office direct by email](#) or [by telephone 07 3396 8666 > option 6](#).

KENO & CLUBS QUEENSLAND
AWARDS FOR EXCELLENCE 2022

2022 has been an outstanding year of achievement for RQYS Members and our Club, not only afloat and ashore but also at state and national levels and in international competitions around the world.

Following the Awards for Excellence from Keno & Clubs Queensland as 'Best Sports Club' and 'Club of the Year (Non-Gaming)' earlier in the year, we were thrilled to field no less than five category winners in Australian Sailing's Queensland Awards for 2022, in addition to being named 'Club of the Year' –

Club of the Year	Royal Queensland Yacht Squadron
Offshore Sailor of the Year	Peter Harburg
Female Sailor of the Year	Mara Stransky
Male Sailor of the Year	Tom Needham (and Joel Turner)
Official of the Year	Guy Morton
Sports Promotion	Mike Middleton

We were also finalists in three categories (including Club of the Year and Sports Promotion) of Australian Sailing's National Awards but it was Mara who claimed another gold on Friday 4th November 2022 at the Australian National Maritime Museum in Darling Harbour, taking out National Female Sailor of the Year and sharing the Ampol Yachtsman of the Year Trophy with Tom Slingsby. 🚩

Congratulations to everyone nominated!

SQUADRON AWARDS 2022

LIFE MEMBERSHIP

P/Cdre Richard Seymour

Past-Commodore Richard Seymour joined the Squadron in 1981, volunteered on the Finance Committee in 1992 and served four years as a Flag Officer before being elected Commodore in 1999. Richard was a competitor in both Sail and Power events whilst guiding his three sons through many sailing classes. Having cruised extensively under sail, he and his wife Marianne are about to experience cruising under power after yet another vessel restoration.

Fraser Spencer

Fraser joined in 1984 and, since 1988, has served on House, Powerboat, Works and General Committees. He keenly competes in both Sail and Power events and has been the Squadron's honorary architect for more than 20 years, works including the Boardwalk, Marina Office and the upcoming Canaipa Long House. He was part of the team planning the relocation of the Port of Brisbane Visitors Centre by sea in 2014 to become the RQYS Clubhouse.

Marine Sports Volunteer Award

Arthur Gough

Officially named the #1 mark-layer at the Squadron, Arthur's hands-on approach ensures that marks are dropped efficiently and precisely. He has also selflessly given countless hours with 'the boys' in Finn's Shed, helping the Squadron maintain our vast fleet of Optimists, Elliotts, Quests and Lasers – plus anything else around the Club that needs mending: congratulations, Goughy, we appreciate all the work that you do! 🇳🇿

YACHTSHARE

CLUB MEMBER OF THE YEAR

Guy Morton

This year, we recognised and congratulated Guy for his continued support of race management and for his selfless dedication to the Squadron across all areas of volunteering, especially his behind-the-scenes efforts.

Guy also received Australian Sailing's 'Official of the Year' award and we couldn't be more proud!

Goodwill Cup 2022 • NAVIGATION

The 61st Goodwill Cup Navigation Event was held on 5th and 6th November between RQYS and Southport Yacht Club. There was a total of 35 boats between both clubs, however on the day two withdrew due to mechanical issues while the rest of the fleet enjoyed the pleasant 15kn southeasterly conditions. The event started near Horseshoe Bay and went clockwise around Peel Island, finishing near Blakesley's anchorage. The fleet then continued to Canaipa for Commodore's drinks and dinner. Sunday morning was breakfast ashore organised by John and Merija Higgins aboard *Harbor-Nating* and the announcement of results.

GPS	
1st	P/Cdre Denis Land, North Light (RQYS) 10 points
2nd	Todd Brooker, Mia (SYC) 13 points
3rd	P/Cdre Ken Tregeagle, Babe II (SYC) 20 points
Traditional	
1st	Steve Manchester, Bell Tempo (SYC) 25 Points
2nd	Craig Black, Odyssey (RQYS) 80 points
3rd	Stephen O'Brien, September Song (RQYS) 125 points

The winning overall club with the lowest combined points score was SYC. Combined scores were SYC 58, RQYS 73. The Squadron has held the Goodwill Cup since 2018 and we hope to return with it next year. *(At least we won the shoreside tug-o-war on the Sunday morning!)*

Very big thanks to our sponsors: **Trymax Marine Electronics**, **Gold Coast City Marina**, **The Boutique Boat Company** and **Heineken**. Without their generous support these events wouldn't be so successful. Also, thanks to the Power Cruising Group committee members for their assistance. 🚩

FRESH HANDS ON THE TILLERS

Energising RQYS afloat and ashore

From helping snatch 'the Auld Mug' from the Americans for the first time in generations to shepherding Aussie Paralympian sailors to podium wins at the London Olympics, these two blokes bring a wealth of sailing and business expertise to their new Squadron roles.

BUSINESS DEVELOPMENT MANAGER : ROB BROWN OAM

One of Australia's best known yachtsmen for his role as a crew member on **Australia II** when Australia won the America's Cup in 1983, Rob Brown OAM has started in a new role at RQYS as Business Development Manager.

Rob is well known for his world-class performances in ocean racing and skippering class-winning national championships and coaching, but is also highly experienced in the corporate world, dealing with media, project and general management as well as project development.

He is an accomplished speaker, motivator, sports coach and event manager. Rob is a recent arrival as a Queensland resident, and is keen to share his skills, experience and larrikin sense of humour.

"We are extremely excited to have a sports professional like Rob join our team at a critical time to assist in building a rapport and strategic alliances with key stakeholders to achieve best outcomes in the lead-up to the Olympic Games Sailing program in 2032," said Commodore David Redfern.

Rob will be working closely with the RQYS Board, CEO and the respective Committees to build support and develop strategies which will align with the Squadron's objectives and future masterplans, particularly focused on the next 10 years. ▶

HEAD COACH : ADRIAN FINGLAS

More than 1,000 enrolments each year in our Sailing Academy meant the Squadron saw the need and found the ideal person for the role of Head Coach, appointing Adrian Finglas.

Adrian (better known as "Aidz") returns to his home town of Brisbane after spending a few years in Melbourne where he worked in coaching roles, as well as for a time in the construction business. (He says his cap is to remind him of the 'back to his roots' role change!)

As Head Coach at RQYS, Adrian will bring a greater emphasis and focus on the development of the youth sailors across all levels and fleets, as well as supporting the growth and skill of our already strong team of coaches and Instructors.

Adrian has had a long and very successful sailing career, including Olympic campaigns (1992, 2008 & 2012), Rolex Sydney Hobart races, and national championships on Sabots, 420s, 470s, 505s and Lasers. Adrian was also the Paralympic Coach in London where his sailors won Gold and Silver medals.

Adrian starts in his RQYS role in early November and said "I am so excited and can't wait to get back to coaching and helping more young sailors do the best they can, and achieve their own goals and sailing dreams!" ▶

NEW TROPHY WINNING RELEASE!

Robert Oatley Signature Series Sauvignon Blanc Semillon 2022
Margaret River, Western Australia

WINNER — TROPHY Best Dry White Blend
GOLD MEDAL
Royal Adelaide Wine Show 2022

"This is simply a gorgeous current drinking blend that shows the admirable virtues of these two varieties from Margaret River in a good season where fruit concentration was a feature. Has that delightful mix of passionfruit and other tropical guava infused tropical characters. It's a pure unadorned wine that is perfect for current drinking."

94 points, Ray Jordan, The Real Review

Wines of character and integrity from the Oatley Family

ROBERT OATLEY

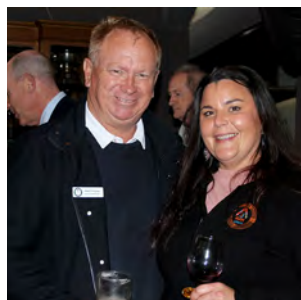

COUNTDOWN TO 2032 BEGINS!

10 years to focus on Olympian goals

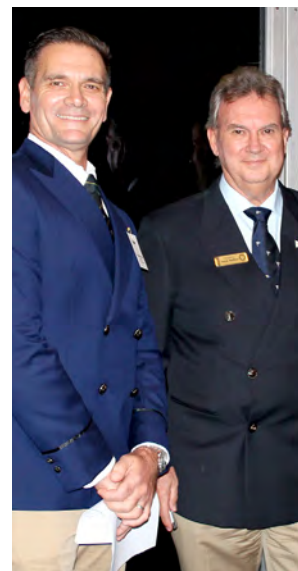

It has been often reported that RQYS has a strong Olympic heritage with representation in Sailing events by Squadron Members at every Olympic Games since 1956 – a tradition set to continue until our own ‘hometown event’ in just a decade from now.

A new goal has been set to ensure that we have as many of today's young sailors participating in the 2032 Games here in Brisbane. In addition, we want to ensure that the Squadron and our Members enjoy the lead-up to the Games, as it is expected that many international and national teams will want to test and experience sailing on Moreton Bay and visit here regularly.

The Squadron has created two special fundraising channels in the John Harrison Olympic Sailing Foundation (JHOSF) and the Wyuna Fund, both of which will be promoted to encourage more Member contributions towards helping achieve our goals.

In 2023, the clock ticks over to nine years to go on Saturday 22nd July and we are already planning another Countdown event on or very close to that date. We look forward to celebrating each annual milestone as we get closer to 2032! 🇦🇺

In July 2022, we launched the **10-year Countdown** and we want as many RQYS Members as possible to enjoy and be involved in supporting our youth sailors and ensuring that our facilities are the best they can be. Todd Anderson hosted this event with a special guest panel including Olympian Finn sailor Brendan Casey (London 2012), upcoming Olympic aspirant Sammie Costin, Australian Sailing CEO Ben Houston, Australian Olympic Committee Vice-Chair Matt Allen AM, as well as Ben Callard and Alistair Murray and, with more than 100 Members and guests attending, lots of great stories were shared.

The countdown will continue in July each year as we aim to celebrate our past achievements and encourage our future Olympians.

MORETON BAY TO FREYCINET ...

Simple local or southern adventures

With the eventual lifting of COVID restrictions it has been marvellous to welcome back our monthly cruises and some adventures further afield, RQYS Sail Cruising Group Chairs Quentin and Barbara Granger celebrate and report.

The Sail Cruising Group has expanded by eight percent this year with over 100 registered yachts and at least 40% active members. A survey of our Group in mid-2021 highlighted the overwhelming desire to return to a simpler cruising agenda, with fewer themed events and more sundowners / barbeques on the beach – which has thus been our aim for this year.

On completion of the 2021 Cruise North [see MS21, pp.33–35] returning boats enjoyed the Pirate and Progressive Dinner weekends, rounding out the year with a well-attended Christmas Party at RQYS and the Christmas Lights cruise round the canals of Raby Bay.

Unfortunately, the former event was interrupted by thunderstorms which brought about an abrupt end to what was turning out to be a truly festive occasion!

The start to 2022 saw further COVID restrictions and some ordinary weather so that put a dampener on activities. However, it didn't stop a small group of adventurers heading south for a circumnavigation of Tasmania.

Four boats – all sailing catamarans – left Manly in January 2022 and commenced the anticlockwise circumnavigation in February. They visited Devonport, the cute village of Stanley with its iconic 'Nut' and Three Hummock Island before the infamous NW Coast lived up to its reputation, with all vessels exposed to 35–40kt winds, which thankfully mellowed as they sailed southwards.

They arrived through 'Hells Gates' into Macquarie Harbour for the cruise up the Gordon River. This was the highlight of the trip with all four vessels heading to Warner's Landing, where they used their dinghies to explore the Franklin River. The beauty of this area was awe-inspiring and a photographer's heaven.

Port Davey and Bathurst Harbour, both surrounded by mountains and wilderness, were the next stop with the imposing Mt Rugby being successfully climbed by the intrepid group on one of the finer days they had in this area. They also got the opportunity to dinghy up the Davey River to visit a spectacular gorge – one of the many hidden delights of the southwest coast.

In, on, over or under water, give your project the foundation it deserves.

Your go-to geotechnical consulting firm with offices in Brisbane and the Goldcoast, Pacific Geotech and their staff have significant experience in Geotechnical consulting throughout Queensland and the East Coast of Australia.

Operations have been conducted by our engineering consulting group in Asia and the Pacific, including the Solomon Islands, Vanuatu, Fiji and PNG. Pacific Geotech is a specialist engineering firm in overwater, soft soil and limited access geotechnical investigations. Given our experience, we are well placed to provide knowledgeable, informed advice regarding the options available for our clients' projects.

pacgeo.com.au

Pacific Geotech
Consulting Geotechnical Engineers

Over in the east, they visited Bruny Island, Hobart and Norfolk Bay with some boats venturing down the Tasman Peninsula to Cape Raoul and Port Arthur. They all transited through the Denison Canal in early March, before sampling the delights of Maria Island and the impressive mountains and granite promontories of the Freycinet Peninsula, then heading to Flinders Island and the return delivery trip across Bass Strait.

It was a memorable adventure, whilst challenging too, with the mighty Southern Ocean to tame and the varying weather patterns to overcome – *“Sailing in Company”* certainly assisted.

Back home in Manly, the year rounded out with our annual Christmas in July event. Attendance was fantastic as we enjoyed a three-course foodie bonanza and the traditional Bad “Stealing” Santa event, where everyone fought for, or tried to hide, the many gifts that were up for grabs.

Sail Cruising is all about socialising with like-minded sailors, and whether it is ‘Simple Sundowners on the beach’ or venturing further afield on a cruising adventure, we all look forward to another eventful year in 2023. 🇦🇺

POWER UP TO WIND DOWN ...

A 2022 diary of relaxing discoveries

The Powerboat Cruising Group regularly travels to many beautiful destinations around Moreton Bay and beyond, notes Group Co-Chairs P/Cdre Ian Threlfall and Jan Ralph, with cruise events organised most months of the year designed to be fun for the whole family.

The Group now has over 100 members with power boats ranging in size from 8m to over 20m and cruising speeds of six to 26 knots. *(It is not the size or the speed that matters, it's the company!)*

The group is always looking for new members, so whether you are new to boating or enjoy cruising in company, being part of the Powerboat Cruising Group is a great way to explore our waterways. Here's a look back at some of our 2022 monthly events.

Easter – Our destination was initially the Bribie Bridge as the larger boats need the lower tide to go under the bridge.

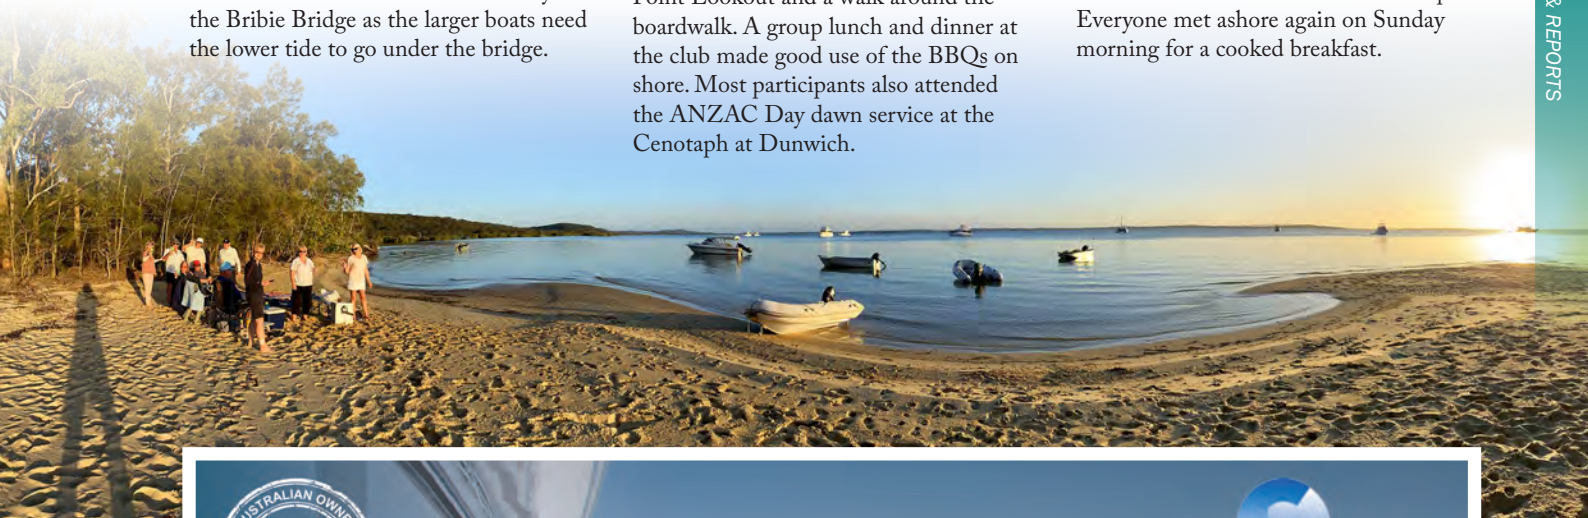

Then the rising tide was used to proceed further up the Pumicestone Passage to Mission Point, an extremely protected anchorage and accessible only by boat. A couple of campsites were booked which was our base for the three nights to meet ashore for sundowners and other fun group activities.

ANZAC Day – Little Ship Club on North Stradbroke. The pontoon was reserved for us, and to fit the maximum number of boats, many boats rafted. The weekend included a bus trip to Point Lookout and a walk around the boardwalk. A group lunch and dinner at the club made good use of the BBQs on shore. Most participants also attended the ANZAC Day dawn service at the Cenotaph at Dunwich.

June – Cruising and Navigation Presentation Awards: the formal get-together night for Powerboat Cruising, Sail Cruising and Navigation Groups to celebrate the past year's achievements – see pix on pages 26–27!

July – Combined Christmas in July at Canaipa. On the Saturday afternoon everyone met ashore for sundowners, followed by a three-course roast dinner.

After dinner it was time for Bad Santa which is always a lot of fun. The night continued with drinks around the firepit. Everyone met ashore again on Sunday morning for a cooked breakfast.

seairland

When performance is critical

We deliver world class brands, in coatings and antifoul, air conditioning, marine pumps and sanitation, engine controls, water purification, air horns and more. Our team develops customised, cost effective solutions to meet our customers' requirements, no matter the type of boat.

10/212 Curtin Ave W, Eagle Farm QLD 4009 Australia | www.seairland.com.au | sales@seairland.com.au | +61 7 3268 7511

August – Winter Sundowners cruise to Blakesleys on North Stradbroke. A simple cruise where we all met on shore for sundowners. Everyone was lucky enough to be invited back to one of the bigger boats to have another couple of drinks and were entertained by one of the cruisers and his guitar.

October – Couran Cove Long weekend. The weekend had very mixed weather conditions of wind, rain and sunshine but we still had a fun time, with a group dinner at Marlin Restaurant, walks, sundowners on the beach – and some even watched the NRL Grand Final.

November – Canaipa and Barefoot Bowls. Something a bit different this time, with a Saturday afternoon at Russell Island Bowls Club. Not many of us had played before but a great time was had by all. We stayed on for dinner at the club and the courtesy bus took us all back to Canaipa Point. The evening continued with a few drinks and yarns around the firepit.

December – Combined Power & Sail Christmas Party at RQYS Beach with a fully catered roast dinner and dessert. The rain stayed away this year and the strong winds during the afternoon eased to ensure it was an enjoyable but slightly cool night.

Full Boating Members of RQYS are always welcome to join our ranks and you can stay up to date in the weekly *"In The Wind" Squadron eNews*. 🚩

KEPPEL BAY CRUISE IN COMPANY

Yachtshare group's warmer winter

This year, a group of yachts and their owners from the Yachtshare fleet cruised in company on a week-long adventure from RQYS to Keppel Bay Marina in Rosslyn Bay, reports Tania Ryan, with many first-time venturers enjoying their experiences outside Moreton Bay.

Yachtshare has been co-ordinating winter excursions to the Great Barrier Reef for the last eight years. In June, a rally was orchestrated to enable a group of boats to cruise together and share the adventure. With the Yachtshare team planning and co-ordinating, and with the assistance of RQYS and the Keppel Bay Marina, a flotilla of ten boats and more than 40 shareowners set out from Manly Boat Harbour with fair winds and following seas. Some had multiple shareowners onboard, reflecting the community spirit of the Yachtshare family.

With a hurried farewell from RQYS, the fleet excitedly made their way out of Moreton Bay and travelled to Double Island Point on the first day.

Some catamarans enjoyed the unique Rainbow Bay lagoon while other yachts anchored off the point. Wide Bay Bar can be daunting at the best of times, but the flotilla crossed safely and navigated through to Kingfisher Bay Resort.

At Kingfisher Bay, a number of the owners joined the K'Gari island tour. The day trip provided a great insight into the history of the island and its culture.

Big thanks to all the staff at **Kingfisher Bay Resort** for a great dinner enjoyed on the Rally's second night. There were plenty of stories to share about crossing the Wide Bay Bar and navigating the shallow waters of Great Sandy Strait.

On day three, the fleet split up, with some yachts diverting to Bundaberg for more supplies (*a.k.a. beer!*) while others went straight through to Lady Musgrave Island.

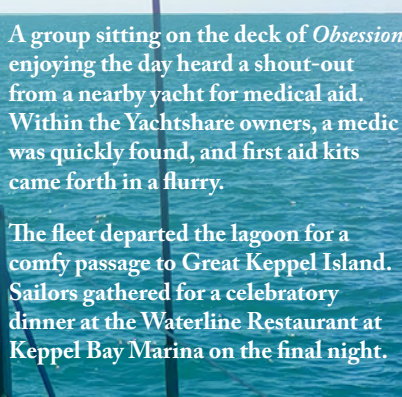

At Lady Musgrave Island, the fleet spent the night in the calm of the lagoon, with some owners arriving to show off their catch of the day. The afternoon was spent exploring the famous coral cay, and the crews had a well-earned rest.

A group sitting on the deck of *Obsession* enjoying the day heard a shout-out from a nearby yacht for medical aid. Within the Yachtshare owners, a medic was quickly found, and first aid kits came forth in a flurry.

The fleet departed the lagoon for a comfy passage to Great Keppel Island. Sailors gathered for a celebratory dinner at the Waterline Restaurant at Keppel Bay Marina on the final night.

For some owners, this was their first time sailing as part of a Rally outside their familiar sailing grounds of Moreton Bay or the Whitsundays. The journey along the Coral Coast awakened their sense of adventure and possibilities. There is already interest building for another Yachtshare Rally in 2023!

A big shout-out and thank you to the Yachtshare owners who participated. Thank you also to Kingfisher Bay Resort, **Bundaberg Marina**, Lady Musgrave Island (Queensland Parks and Wildlife Service), Great Keppel Island and **Keppel Bay Marina** for your hospitality. We look forward to repeating the adventure next year! 🇵🇹

NEED BOAT INSURANCE?

Club Marine has been providing an outstanding claims service to sailors, anglers, water skiers, and boaties of all kinds for more than 50 years.

You can choose from broad and flexible policy options, enjoy great service and access exclusive member benefits.

BRISBANE-TO-HAMMO TAKES OFF!

Past-Commodores' vision realised

P/Cdre Mark Gallagher, Race Director of The Yacht Sales Co 2022 Brisbane to Hamilton Island Yacht Race, reflects on the foundations and the pandemic-interrupted footing of what now seems set to become a signature RQYS offshore racing event for 2023 and beyond.

By 2018 the popularity of an offshore race catering for boats heading north to the Whitsunday Race Weeks had been proven. Entries in the Brisbane to Keppel Yacht Race (popularly known as the B2K) had grown since the first race in 2007, and the logistics of hosting larger boats at **Keppel Bay Marina** had increased.

In 2018 a group of Members led by Past-Commodore Barry Cuneo proposed a race to Hamilton Island to be held in parallel with the B2K to cater for larger boats. This race introduced another 500-plus mile event to Australian offshore events, with the added attraction being off-the-wind, warm water racing.

Hamilton Island and the **Oatley** family were both keen to become destination partners for the event, and on Friday 2nd August 2019, a fleet of 17 boats started the first B2HI Yacht Race.

Inaugural Line Honours winner was the Karl Kwok-owned, Gavin Brady-skipped MOD70 trimaran *Beau Geste* and monohull honours went to the Oatley family-owned, Mark Richards-skipped *Wild Oats XI*, (since prefixed *Hamilton Island*). IRC overall honours went to the Matt Allen-owned and skippered Botin52 *Ichi Ban*.

Unfortunately, COVID scuppered the 2020 and 2021 races.

2022 saw **The Yacht Sales Co**-sponsored race back with a blast, with 26 entries, including three 100ft Maxis: *Andoo Comanche*, *Black Jack*, and *Hamilton Island Wild Oats XI*.

THE YACHT SALES CO.

BRISBANE HAMILTON ISLAND YACHT RACE 2022

The winners in 2022 were:

Line honours monohull – the John Winning-owned and skippered *Andoo Comanche* in 2 days 4 hours 58 minutes.

Line honours multihull – the Drew Carruthers-designed, owned, and skippered *Rushour* in 2 days 20 hours and 45 minutes.

IRC overall honours went to the Matt Williams-owned and skippered *Cookson 12 Trouble & Strife*.

Special thanks to all our RQYS Volunteers who manned the 24/7 radio control centre at RQYS for the duration of the race, and to everyone who assisted in its preparation and successful delivery, including **Club Marine**.

Hamilton Island and the Oatley family continue to support the B2HI and planning is already well underway for the next event starting on 4th August 2023. 

HAMMO TO HOBART HOMECOMING

“Condi’s” dreams crystallise in 2022

It’s been a big year for owner/skipper Matt “Condi” Williams and his crews, writes ‘the other Matt’ (Tesch), with “Trouble & Strife” shaking off the black humour of her name origins and carving a new one for herself in 2022 as a solid Squadron offshore and inshore racer.

So many marine love affairs begin down in Pittwater, it seems, so when Matt had the opportunity in 2019 to acquire one of the only five Cookson 12s in Australia – “those don’t often come up for sale” – his coveted “Occasional Coarse Language” was shrewdly rechristened “T&S” in keeping with her mischievous nomenclature ... doubtless making any later radio calls much less a mouthful.

Matt’s fifth, and most wanted (a good combination racer/cruiser) boat had been actively monitored for almost a decade before her availability for sale. Founding partner Douane Smith (who’s since had to relinquish his share in the boat) “knew her first owner and we both knew her second owner,” recalls Matt. “There’s only a dozen or so in all of these – an early (1996) Bruce Farr design built by Nick Cookson – that we know of, almost all in Australia, New Zealand and the USA.”

In March 2019, T&S passed up to RQYS and then began the inventory of fixtures, furnishings, fittings and gear. Unflappable Matt (has anyone heard that man utter a coarse epithet?) and his growing band of crew and helpers worked their way through a mountain of repairs, replacements and refit items in the final, pre-pandemic months.

In conversation, a sailing background of vast experience was revealed, from Matt’s early years in Tasmania (“TAS = T&S – you see what I did there?”), on the waters of Devonport, Bass Strait, the Tamar and the Derwent. As a teenager in the 1980s he offered to help take a boat up to Sydney, and found himself participating in races there before returning south.

In 1991, Matt crewed his first Sydney Hobart race, on father Peter’s “Allegro” and the rest, as they say, is history.

It would be the first of 11 Hobarts (“half a dozen as sailing master on other boats”) before the 2022 race which would be the deferred emotional vision of skippering T&S ‘home’ to Tassie. In between, Matt would rack up many racing days around Australia and overseas – including, with now-Commodore David Redfern – the unique challenges of the Fastnet (2015) and Antigua (2017) races.

At Manly, bit by bit, T&S was brought up to Matt’s laconically understated but exacting standards, and began her first, tentative forays into Squadron events on the Bay. Results were mixed and post-berth return beverages were laced with tales of what had under-performed (or busted), King Neptune undoubtedly cracking a smile at the boat living up to both of her names.

After one particularly ‘ordinary’ Div. Yachts weekend outing, a close encounter mid-race necessitated further spending – on fibreglass, stainless steel and standing rig – which, with COVID constraints, pushed the prospect of a Hobart even further into the indefinite future.

But progress was real, and measured, and Matt’s standing invitation for try-out crew members saw an expanding pool of hands (“eclectic” is how we describe the T&S ‘family’) help bring out the boat’s strengths – and pleasures – both inshore and offshore.

“It’s about bringing people together to mould the right crew,” Matt reckons, “and trying a couple of younger hands on the boat too: we’ve all got an obligation to help bring along the next generation of young sailors. And offshore racing is like a family: even former sailors who’ve moved ashore still follow what we’re doing.”

First attempt at the Gladstone, in 2019, was ‘reasonable’ and this year’s “was a bit average but followed by a good St Helena Cup,” said Matt. Crew composition continued to vary, with opportunities offered to newcomers as well as older hands wanting to test and learn sailing skills, but a keen observer could see the core team coalescing.

I was fortunate to spend time with some really experienced seamen and learned the mantra of always doing things carefully, methodically and safely.

TROUBLE & STRIFE

SINCE 2019

"I'm incredibly lucky to have a supportive wife and family as well as solid sponsors ashore, like G'Day Parks, and afloat, like JSA Marine, Norths Sails, Rope Solutions & Adam Dodson Diving. And one crew member has just had a second child, so that's the succession planning in action!"

Four years' effort was realised in August this year, with T&S winning two out of three classes in the first post-pandemic Brisbane-to-Hamilton Island Yacht Race ("we missed out on the third by 30 seconds because we had to manoeuvre to avoid a ship off Caloundra!").

With the success of Hammo 2022, Hobart crystallised as a realistic goal. Matt's pre-departure thoughts? *"Two of the best things are turning off the work phone for a few days – and the elation of sunrise after a scary night."*

One of eight RQYS-affiliated entrants in this year's Rolex Sydney Hobart, T&S acquitted herself and her skipper and crew more than creditably, finishing in three days, 11hrs 4min 13sec – 54th (or mid-fleet of the 118 which set out) for Line Honours and 8th and 9th in ORCi Div.3 and IRC Div.3, respectively.

"First 24 hours were pretty good, and we had two Cookson sisters in close proximity for a bit, but then things went downhill with the northerly up to 40 knots."

The W-SW wind change, on the third night, with a northerly swell, southerly seas "and waves from both sides was not a great sea state," he recalled, with no small degree of understatement. *"That was when 'Huntress' had her horrible bad luck, and one of the Cooksons had to retire as well, but we got off lightly – just a couple of cuts and bruises – and it was a really exciting moment for the first-timers aboard to arrive in Hobart."*

Despite clocking a respectable 24.5–25.1 knots crossing Bass Strait, it was a fickle bit of tacking past Maria Island and Cape Pillar in the fading SW winds, before 'rounding the corner' for a fresh beam reach up to the Derwent – *"I kind of think Mum was keeping an eye on me with the wind in the home straight,"* Matt said, quietly, later. After a deserved break, T&S will be back up in Manly, raring to have a crack at the 75th Brisbane to Gladstone in 2023. 🚩

And the nickname? *"I've always loved my condiments – especially Sriracha! – and spicing up a good feed for the crew. T&S is one of the very few boats where you get off heavier than you came aboard!"*

Interstate Squadron Member Ivi Grabavac is just one of many in the RQYS fraternity to have benefited from Matt's extended sailing welcomes. As a new owner himself, Ivi was ready to absorb knowledge like a sponge but, on his first Bay outing on T&S, wasn't expecting to be put straight to work!

Literally shaking with adrenaline high and unwipeable grin on return, Ivi later proved the value of Matt's shared knowledge when he and partner Jody finally ventured north themselves, passing the southbound T&S off K'gari/Fraser on her return from this year's Gladstone. "Matt is such a noble man," Ivi said, when asked for a comment for this piece, "that's why he takes people under his wing." 🚩

RQYS Member Steve Maguire's dreams of open-ocean sailing were cruelled by COVID but 2022 at last offered the chance to join an interrupted east-to-west global circumnavigation cruise of a US yacht for the second stage from Manly to 'home' in the Northeast USA. Matt Tesch has been tracking (right to left!) Steve's commentary from Darwin to Cape Town.

First African landfall was Richards Bay, where we cleared in to South Africa. We arrived about 9pm at the river entrance and, as this is a shipping port, there's a maintained low water depth of 13m. Into the channel to head up to the Zululand Yacht Club and met by the Vice-Commodore in a dinghy to guide us in ... and promptly ran aground on a little shallow spot (charts says maintained depth to 3.5m!), so there we sat for 2hrs until a rescue boat arrived and towed us off, anchored till 5am and then went up to the club, 600m away.

Customs arrived at the club to clear us in and the kitchen opened for breakfast - a nice coffee and a ham, cheese and tomato omelette with toast and a little can of orange juice was under AUS\$10. Very welcoming club, a bit out of the way and you needed to get a taxi (90 Rand / \$8.50) to the shopping mall (much like Tweed city), 12min away.

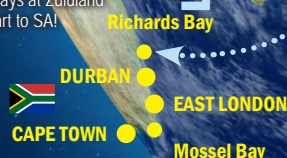

Rest of the boats arrived over the next couple of days and the club put on some cultural entertainment from local groups: we spent a long day 'on safari' which was interesting. First encounter with a big bull elephant on the road not far into the park was bit SCARY: 3 vehicles come round a bend not going fast and there it is in the middle of the road!

He ain't happy and decided he would walk aggressively at us, so we had to back up fast as he came charging in ... after 200m he stops, still angry and saunters into the bush on the side of the road and, as we went past, he was taking it out on a tree!

All the other animals we saw - no big cats but rhinos, giraffes, antelopes, zebras, water buffalo, wildebeest, monkeys of a few varieties plus others - couldn't care less if we stopped near them on not. It was a good day to see them all wild and not in caged areas. We had monkeys at the club grounds, also hippos swim around the club and boats, and it was 'suggested' that if we see any hippos DO NOT go anywhere near them, they can be a bit cantankerous with people.

Really enjoyed the 6 days at Zululand Yacht Club: a good start to SA!

This is the volcano on Réunion Island: last small eruption about 3 weeks ago, the black hardened lava can be seen on the slope.

People are walking to the summit in the foreground is old vent that looks like an anthill and you can see the people walking around it. The drive up here is just like driving around the French Alps, the farms and houses definitely have that European mountain style and the clouds roll in every day and bathe it all in blanket of mist ...

Réunion is a very interesting island with typical French charm and efficiency (well, not quite!) stunning mountain scenery, nice people, big tourism island for the French and other EU countries.

Next stop is Richards Bay in South Africa where we will clear in - also they tell us there are hippos there: we will see?

Leaving Mauritius this morning for Réunion, 135nm, just an overnight sail in hopefully good conditions ...
Arrived at Réunion-Island Wednesday morning

More sea life and birds but contrary winds and short steep seas which for the best part of the trip made it hard to get any rest ... settled down for the last 50nm and we arrived about 2.30am in the harbour - just a fishing / service port for work boats: the only place to tie up was up against the concrete quay with big tyres (lots of fender adjustments!)

It was a secure place, though, very friendly and a great town (safe to walk for a change!) with an interesting maritime history / museum. Enjoyable stay but another weather window was opening up so, permission granted, we left early on the Monday morning for Cape Town 240nm away. We knew we had some rough weather coming astern and it was now getting colder!

By the time we arrived in Cape Town I realised should've told someone at the Club what I was doing and brought some Squadron burgees with me!

When I mention I'm from RQYS (they don't get a lot of visitors from here!) I get a bit of attention from club members and commodores: they all have been very welcoming and I've promised to post over some burgees when I get back to Brissie. Here in Cape Town, we're staying at the V&A Waterfront Marina and hope to visit the Royal Cape Yacht Club soon.

We layover here Xmas/New Year and then leave on 7th January up to Walvis Bay in Namibia then across the South Atlantic to St Helena Island.

From Richards Bay to Durban, 95nm, the weather was sunny but only light winds from the northeast and calm seas and low swell. So we motorsailed to get to Durban before a wind change later that night and cleared out with the authorities by 8.30am.

[In Africa all boats have to fill out a 'flight plan' for all your destinations along the coast: you have to contact the Port Control at each place to ask permission to enter or exit as most have shipping going in or out.]

We arrived in Durban at about 8pm and motored over the the Royal Natal Yacht Club marina to tie up for the night: very friendly club but we stayed only 2 nights as we wanted to push south to East London approximately 300nm away. Durban is a big industrial harbour and we were told 'do not venture into town after dark or in some parts even during the day time!'

On departure, had a mixed bag of weather: nothing too difficult, just uncomfortable. This part of east Africa around to Cape Town is pretty treacherous and the weather (and forecasts) can change rapidly.

We arrived in East London later the next day and secured the boat fore-and-aft at the Buffalo River Yacht Club, a small club but again a lot of enthusiasm from the members - and, again we were warned to not walk up town: if we had to go anywhere it needed to be a taxi or Uber ... on the Sunday afternoon we could hear gunfire from across the river and the members said yes, that what it was!

We organised a fuel delivery for Monday morning and once that was done it was time to head off to Mossel Bay about 260nm away.

GO WEST: THERE IN THE OPEN AIR!

Living a lifelong trans-oceanic dream

Pale-blue SV Sky is a 57-foot (17.5m) Simonis Voogd design, centre-board, twin-rudder, cutter-rigged world passage maker – the kind of vessel to make any monohull cruising helmsman salivate!

"I'm not the skipper," Steve messaged, "but I am as you would say 'First Officer' (I think the other crew DO respect me!) I do get input in decisions and carry out a few repairs, plumbing, rig, hull and some electrics – and BBQing steaks!"

Making good use of the pandemic-induced itinerary delays, Steve kept busy, upskilling around Moreton Bay and offshore, adding marine tickets to his credentials and more hours to his extensive sailing experience.

All the while, champing at the bit for the myriad of global factors (American owner, family, crew, government restrictions – and the stars!) to align, as Spring beckoned, at last it came time to take leave of his RQYS-shore-stored vessel and head north.

EQUATOR

This is out the back of the boat in Flying Fish Cove on Christmas Island – the fish life is absolutely spectacular! The bird life is unique, with Frigate Birds attacking any other bird that looks like it's got food, Boobies and Gannets, everywhere tropic birds, and the rare 'Golden Bosun Bird' ... this is an amazing anchorage well worth visiting!

The other view is a still from my video of the lagoon at Cocos Keeling Islands.

Cocos Keeling Islands

Christmas Island

Lombok Island is interesting. Love the volcanic peak, friendly people but a lot of poverty, a lot of tourism shut down and can't get going again.

Life can sometimes be unfair: I will make the most of these ocean voyages ...

LOMBOK

Ancient land! Double Island Bay, top end of the Wessel Islands – what a great anchorage!

Feeding an 8-foot hammerhead a tuna frame for afternoon fun: definitely no swimming here!

DARWIN

CAIRNS

BRISBANE

Réunion to South Africa is around 1,350nm and we had some rough weather, some great sailing and everything in between – and some drama too.

Sadly, also, we had to look for a man overboard from a ship, 30min after it passed us no more than 300m away. We moved over to the ship's track and slowed down with all on deck on lookout, but conditions were not good with 20kn+ wind and 2–2.5m seas with white horses everywhere.

They had last seen the person on board at 4.30am and the Mayday call went out at 5.45am just at first light but it was overcast so very bad visibility. Later that evening the search was called off as, with sea conditions and the water temperature, there wasn't much hope; sad to see a fellow sailor go this way.

The Indian Ocean crossing, from the Cocos to Mauritius, had little going for it or to report, apart from the words "Jeez, it was rough ..." (check the crest height of the swell astern on a very rare camera moment) so the post-arrival image is certainly worth more than a thousand words ...

SQUADRON'S MAKING WAVES ...

... and sailing accessible for more kids

Over the last six months a plan has been hatched to bring the Making Waves Foundation to RQYS, reveals the nonprofit organisation's V-P Peter Lewis, following in-depth consultations about resourcing with the CEO, Commodore, Committees and Squadron Members.

Making Waves delivers programs for kids and adults living with disadvantage and disability to help them reach their potential through sailing and our four key programs:

Winds of Joy: takes children living with disability out on a big boat in a safe environment to enjoy a freedom they might not otherwise experience.

Winds of Change: takes students at risk and struggling with life to rediscover their possibilities and be reinvigorated into mainstream education.

Winds of Strength: is specifically aimed at Indigenous youth wellbeing, developing life skills and values

Wright of passage: trade-based, helping youth at risk learn practical work and life skills.

Making Waves is currently based out of Sydney, Newcastle and Geelong, delivering these and other programs for 28 years through support from Volunteers and a very small and dedicated staff. Generous funding is received from benefactors, sponsors, donations and grants.

Making Waves has been delivering Winds of Joy programs for many years between Brisbane and the Whitsundays and it is time to establish a permanent base in Queensland – and so began discussions with CEO Karen Baldwin and Commodore David Redfern. We were the “charity of choice” for The Yacht Sales Co Brisbane to Hamilton Island Yacht Race in 2022 and have also spoken at a number of events.

I am delighted to announce that due to a significant donation from an RQYS Member we can now purchase a boat and adapt it for our purposes early next year. We've also received generous sponsorship from Bartons Motor Group and Anton Prange from Yachtshare. We are also very excited to announce that Mat Belcher AO, and CEO of Zhik Australia, has accepted the role of Patron for Making Waves Queensland! A steering group has been established and is planning a Gala Foundation Dinner on 5th May 2023 to raise further funds and awareness.

How can you help? The scale of the program for RQYS will require 50 to 60 Volunteers over a period of time, both afloat and ashore. If this is of interest please make yourself known to the Club. As a long time Volunteer, I can assure you the rewards flow back in many ways. We will train you, develop your skills and hopefully improve your own sailing experience.

Donations: It costs \$250 pp/year to deliver the programs which RQYS Members have already supported. Donation is easy via the QR codes around the Club or our website: makingwavesfoundation.com.au

“It is my experience that our programs deliver a richness to the community of our partner clubs. I have no doubt Making Waves will be part of the future fabric of RQYS.”

We have a big challenge to establish the operation at RQYS but our confidence is high and we look forward to further visits to nurture the project.

Thank-you to everyone that is helping now and those that will help us in the future.

Peter Lewis 

The Squadron has just embarked on a long-term journey with the Making Waves Foundation and RQYS will be their Queensland base, now giving them four locations in Australia – the others being Newcastle, Geelong and Sydney.

Come and join us for what will surely be an extraordinary night of fun, dancing, dining and good old-fashioned camaraderie in the spirit of supporting youth members of our community who are disadvantaged or disabled.

All the funds raised will enable Making Waves Foundation to enrol kids in their programs, and most importantly, give them the joy of sailing and being out on the water – something that many of us simply take for granted.

The event is being held on Friday 5th May 2023 – and will include a stunning three-course dinner, dancing and entertainment, a raffle as well as silent and live auctions. The theme of the event is "Let's paint the night red!" in keeping with the Making Waves red logo so the dress code will be obvious – just wear anything red!

Our goal on the night is to raise at least \$30,000 and with the arrival of their new yacht early in 2023, Making Waves will be up and running very, very soon. Ticket prices have not yet been finalised, so just keep the date free in your diary and more information will be available shortly.

To help achieve these goals, Making Waves in Queensland has already established great relationships with Mark & Gaylene Beitz from Bartons Motor Group, YachtShare's Anton Prange, and other local Clubs and Schools. 🚩

'SANTORINI SUMMER' SUCCESS

Celebrate for a Cause 2022

Founders Tracey Lucock and Kara Vallins announce that this year's event raised more than \$57,000 with 500 guests – 80% will go to charity The Forgotten Women, a unique grassroots housing initiative for homeless women over 55, the balance to the Bayside Community Fund.

Saturday 22nd October, the Bayside's premier fundraising event, Celebrate for a Cause (CFC), was a stunning success despite the weather forcing the event indoors. Amazing styling teams from Veuve Clicquot, White Willow Events, Events in Tents and the Squadron Functions team transformed RQYS into a lush and vibrant Santorini-inspired celebration.

Guests were entertained by roaming Greek entertainers, the lively 'Sorrentino Property Santorini Big Band,' local Wynnum Fringe Director Tom Oliver and his hilarious minder Katrina the Real Wog Wife of Brisbane, who performed at the Fringe Festival.

The project's goal is to put a roof over the heads of as many vulnerable women as possible," said Kara. "By the acquisition of suitable properties, The Forgotten Women project will ensure these women have access to secure, safe and affordable housing options that enable them to age in place."

The remainder of the proceeds have been directed to a new local community foundation, the Bayside Community Fund (BCF).

The BCF, launched earlier this year, aims to generate funds from bequests and donations, which are then invested and managed by the Queensland Investment Corporation and governed by the Queensland Community Foundation.

Dividends will be distributed back to the Bayside community in perpetuity by way of grants to a number of community organisations.

"Our event is about celebrating community and friendships with a purpose. Our ever-growing volunteer team is committed to our simple shared vision, which makes both the event and its surrounding program such a success," said Tracey.

Save the date for our next event: 14th October 2023. For more info visit cfcmanly.com.au and follow us @cfcmanly

RENOVATIONS BRIEFING

Manly and Canaipa works-in-plan

Works Committee Chair and new Life Member Fraser Spencer outlines some of the scope of works in preparation for the Member spaces of our original (Manly) iconic Cavill Building and updates on the construction industry challenges affecting plans for RQYS Canaipa.

Our distinctive round Cavill building has continued to service Members well, even after we floated in our new clubhouse from the Port of Brisbane in 2014.

Recent new carpet upstairs in Flags Function Room has 'lifted the space' and our Committee Meeting Room – with Tyquin family-donated glass boardroom table – is fabulous, however both rooms are held back by lack of lift access.

On the ground level our Yachties Bar is now well past its use-by date with much discussion over its 'planned' renovation.

The Club's boardwalk pavilion continues to provide a great location for Members' functions, club events, championship presentations and day-to-day use.

The main clubhouse is ageing well with the Girdis room a favourite Members' space adjacent to our green rigging lawns and harbour view.

THE BRIEF

The Master Plan Working Group has now committed to a design brief as part of the Club's developing master plan for our facilities for the next 10 years.

LIFT

A lift is proposed to service the first floor of the Cavill building to provide improved access for people with varying capabilities. Entry will be on the ground floor from the new Yachties Bar and will rise beside the existing external staircase to arrive on an enclosed landing and into a dedicated new entry foyer into Flags.

YACHTIES BAR TO BE NEW CLUB LOUNGE

We plan to demolish the old and outdated Yachties Bar and create a new comfortable club lounge space with model and trophy room, and opportunity for private dining or meeting room.

NEW CLUB PAVILION BAR

A new club bar is proposed for our pavilion located on the southeast-side timber deck to give better sense of arrival for Members and visitors.

This bar and cafe service area will create a new focus for our pavilion for modern club dining and provide a much better connection and interface with Members and guests in the bar and for dining.

AMENITIES

The ground floor amenities (behind the existing Yachties Bar) will be renovated to create a modern, refreshed appearance, including updated shower requirements and a dedicated PWD bathroom.

GIRDIS ROOM

Renovations will add a new *al-fresco* roofed deck constructed along the north-facing side, also adding bi-folding doors and windows to connect the Girdis Room to the outdoors, overlooking the rigging lawn, marina and views.

CANAIPA LONG HOUSE

The original caretaker's house has now been demolished and a new caretaker's house has been constructed.

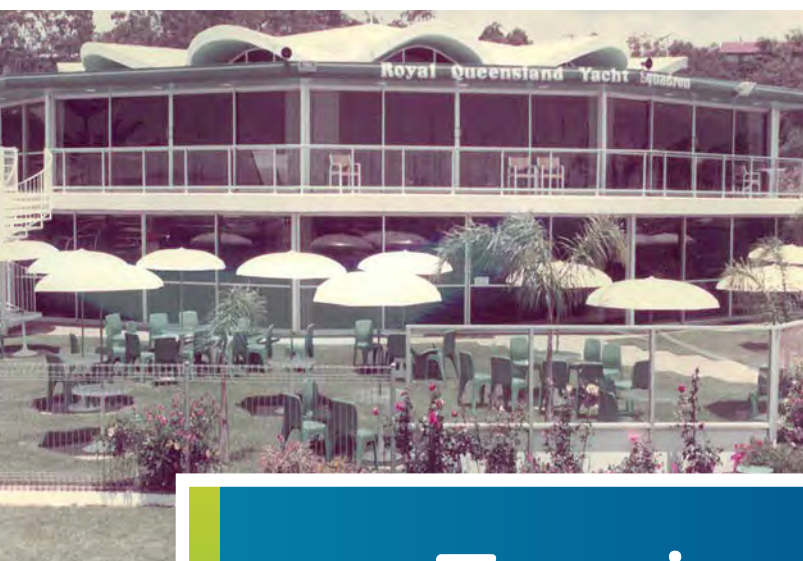

A planning permit has been negotiated and drawings prepared to create our new Long House pavilion similar in quality to our successful amenities building which was built 25 years ago.

A number of Squadron Members have already donated much-appreciated funds towards the Canaipa project to date, for both the new buildings. Tenders have been sought and received for the latter but, with the recent price escalations, are well above our planned building budget.

We are currently working the plan with a preferred builder to present a more acceptable construction sum early 2023 – when building costs will hopefully stabilise and we can revive this Down-the-Bay club asset.

The coming year will be a busy one for improving Member amenities and renovating club facilities for now and the years ahead. 🚩

WYUNA FUND

Olympic legacy supporting the future

The Wyuna Fund was established to assist Youth and Junior sailors to compete at National and International level. The fund is named after Olympian John Cuneo's Gold Medal-winning Dragon-class yacht "Wyuna."

Winning over 60 championships in eight different classes during his sailing career, John Cuneo was inducted to the Sport Australia Hall of Fame in 1986, the Queensland Sport Hall of Fame in 2009, and the Australian Sailing Hall of Fame.

Wyuna Sailors epitomise fundamental values of the sport – such as good sportsmanship – and they are required at all times to be positive role models both on and off the water. The fund thus supports engagement with the greater sailing community, nationally and internationally, as much as facilitating improved sports performance. As our young sailors represent the Squadron, Australia and the sport on various stages, it is important to take a holistic approach to developing character and substance as well as competitiveness.

The Wyuna Foundation at Royal Queensland Yacht Squadron, established in memory of John's 1972 Olympic Gold Medal winning Dragon Class Yacht, directly benefits young sailors to help achieve their goals.

In the past 12 months, the Wyuna Fund has received \$3,413 in contributions and donations (particularly from the recent "Splice the Mainbrace" event) and a total of \$3,000 was distributed, leaving a balance of \$5,413 for us to continue building on. 🚩

NOW. BACK TO THE WYUNA 1972 OLYMPIC GOLD STORY ...

Away from the 1972 Munich Olympic Games village and spotlight, two Aussie sailing crews turned the waters of Kiel to gold. They created history with twin brothers John and Tom Anderson winning Olympic Gold medals and highlighting the voracious talent of Australian sailors of the generation including John Cuneo OAM, John Shaw and David Forbes.

Heading to their second Games, Cuneo (born 1928) and Tom Anderson (1939-2010) were looking to better their fifth place in Mexico City 1968. Both sailors were world and Australian champions, highly experienced and the addition of Dragon class champion John Shaw (born 1937), completed the trio.

Their 1972 Olympic selection followed a tight tussle and the crew headed to Europe with international success on their mind. However early regattas in Denmark and Germany delivered only average results and the crew sought to take drastic action. The old sails from a Canadian competitor's boat were the tonic required to make the boat competitive.

Their Olympic campaign began magnificently, winning the first three heats. Then came a disastrous performance in the fourth race, which Cuneo later explained:

"The problems started when we decided to sail conservatively so as to consolidate our position, not taking risks. We tacked before we should have and sailed back into the fleet where we felt our main competitors were. We got buried and were never able to recover, finishing 19th."

The fifth race was abandoned on a windless day when none of the boats were able to complete the course, and in the next heat, the Australians finished third.

By the last race, all they needed to do was finish the race, stay undisqualified, and finish 18th or better. They stayed close to the front all the way and finished fourth. *"I knew we had the gold medal in the bag after we'd gone 100 yards,"* Cuneo later said, *"It was a piece of cake"*. They won gold, 28 points ahead of the East Germans. 🚩

HISTORY COMMITTEE REPORT

Looking forward, looking backward

The enormous expansion that occurred in RQYS facilities in the decade to 2015 prompted future members of the History Committee to write then Commodore Kevin Miller.

That communication addressed the needs to document the expansion while it was fresh in our minds. As a base for our history Volume II. Memories blur, good people depart, and Past Commodore Kevin was quick to endorse the suggestion.

Fortunately, annual members and staff involved with "Up the River & Down The Bay," the Squadron's history of our first 120 years, were keen to be involved and so the History Committee came together.

Life Members Mike Burke, Lynne Jackson, Dugald Henderson, Grant Somerville, P/Cdre Mark Gallagher and P/Cdre Richard Crooke have researched, read, selected photos, collected and discussed the project and all currently recommending an author for Vol.II of our own history 2006-2021.

Despite approaching a combined 300 years of Squadron association in the committee, we have been surprised with the extent of our memory lapses and at times our lack of recall.

What has amazed the committee is just how far the Squadron has progressed during the review period.

The expansion of infrastructure, the wonderful results achieved by our sailors and voyages undertaken and the growth in membership and the associated activity have all made for enjoyable and interesting research.

It is our aim, that in due course publication of Volume II will provide members with pride in their favourite institution. 🚩

Welcome aboard, new Members!

With more than 530 new faces joining across all types of memberships in the past year, it's clear that RQYS is looking to a bright future, and we wish our new Members great pleasure enjoying the many Squadron activities and events afloat and ashore!

NEW MEMBERS

COUNTRY

Full Members who live more than 100km from the GPO, active in the sport of yachting, sailing or fishing or who have an interest in yachting, yacht building, sailing, fishing or other uses of boats for recreational purposes.

TRADES AND SERVICES Directory 2022

MARINE ONLINE AUCTIONS

The Revolutionary way when either buying or selling any type of vessel with proven and successful results.

Marine Online Auctions are truly the way forward for both the buyer and seller. The timed Online Auction method of sale, has the ability to reach a far greater number of potential buyers than the traditional method when selling any type of vessel, and also shrinks the sale process to a fraction of the time it normally takes to find a buyer.

Marine Online Auctions dramatically increases the exposure of our client's vessels to many more interested parties and a larger network of potential buyers from around the world.

This updated 2022 edition has been compiled for the information of RQYS members; limited space and resources means this is not necessarily an exhaustive listing of all contractors and suppliers available. Information collated was understood to be current as of the end of November 2022; please advise any amendments, corrections and updates to: publications@rqys.com.au

Readers of the digital/PDF version of **MAINSHEET 2022** enjoy 'one-click' access to all the trades and services providers via their hyperlinked contact phone numbers, email and web addresses as well as by the links embedded in the display business cards.

YOUR SERVICE EXPERTS

Complimentary pickup and delivery service from the RQYS club is available.

YACHT RIGGING & ROPE SPECIALISTS

Breathtaking exposure of the stellar night sky above RQYS Canaipa. Readers of the RQYS weekly eNews (ITW #22.26 of 1st July) may recall clicking on an onscreen enlargement of this amazing view, and it's reproduced here to linger and savour.
